

UNIBOARD®

LUXURY LAMINATE FLOORING

SERIES 10

How many boxes do you need?

All our flooring are available with or without Soundblock underlayment.

It's more than just a pre-attached foam underlayment!

Soundblock Technology premium pre-attached acoustic underlayment is an exceptional innovation for Uniboard® premium laminate flooring:

- Provides superior underfoot comfort and support - never feels cold to the touch
- Significantly reduces walking noise and impact vibrations
- Thermal properties offer enhanced energy efficiency and greater home comfort
- Closed cell structure is moisture-resistant
- Can be installed over radiant floor† heating systems, concrete† or wood substrates and on all grade levels
- Speeds installation since underlayment is already attached to each flooring plank
- Cuts cleanly and easily

† These floors must be covered with a vapor barrier before proceeding with the installation of laminate flooring.

With Soundblock Underlayment

A box contains 8 planks, 13.10 sq. ft, 1.22 sq.m.
A 7% overage has been included.

ROOM WIDTH IN FEET
